Convoyer's Report: Arrived on site at 12.30am Saturday 9th August and put water before the birds before turning in for the night. Rose at 5.45am and checked water for the birds. I had already consulted with the race advisor who had contacted all organisations which could have affected our race and it had been agreed by all that the Welsh birds would be liberated early and we would go at 7am weather permitting. Others would wait a reasonable time for our birds to clear their flight paths. The weather was fine and sunny with a WSW wind blowing. We used a rocket to deter any birds of prey which may have been in the area and the birds were liberated at 7am, clearing well to the NW. Independent observers at the site have expressed their admiration at the manner in which the birds had been looked after and the excellent liberation – their observations were published on the internet.

Martin Pike
