**Convoyer's Report:** Arrived on site at about 1am and put water before the birds. We turned in for some sleep. Rose at 5am and topped up water. At daybreak the weather was reasonably fine but misty. Liaised with the race advisor and it appeared that weather in some parts of the Combine area towards the west was unsuitable for liberation but this was expected to clear. It did so after a couple of hours and following further discussion with the race advisor we decided upon liberation at 9.30am. At this time the weather was fine and sunny with a light SE wind. The birds cleared the site immediately without splitting into groups. There were a number of sticking crate lids which were quickly dealt with. I made a note of the clubs involved and I understand the Secretary has informed them of the problem.
