**Convoyer's Report:** Arrived on site at 12.45am and put water before the birds. We turned in for some sleep. Rose at 7am and topped up water. At daybreak the weather was cloudy with no sun. A strong SW wind was blowing and we had some light rain passing through. Liaised with the race advisor and it appeared that weather in several parts of the Combine area was unsuitable for liberation due to cloud cover and showers but this was expected to clear quickly. During the morning we had plenty of sunshine with white fluffy clouds – the strong SW wind was still present. Following further discussion with the race advisor we decided to liberate at 9.30am in the strong SW wind. The birds cleared immediately with no stragglers.

**Martin Pike**  
**Chief Convoyer**
