Convoyer's Report: Arrived on site at 2.30am and topped up water before turning in for sleep. Rose at 7am and topped up water. Weather was misty and quite cold with a NE wind blowing. Not suitable to consider liberation. Liaised with race advisor and found that most of the Combine area was foggy with poor visibility – this was expected to clear throughout the area later in the morning. I kept in regular contact with the race advisor. The weather improved fairly quickly on site with sunshine and good visibility but conditions in the Combine were slower to improve. It was later planned to liberate at around 11am but we had to wait for two other organisations to liberate. This they did. Following the latest update from the race advisor I liberated the birds at 11.45am in a NE wind. They cleared immediately and headed for home.

Martin Pike
Chief Convoyer
